Note 1: Testing data for school year 2000-2001 establishes a new baseline for Montana assessment, reporting the results of a new test (ITBS/ITED Form A, normed against a national sample population in school year 2000) administered uniformly across the state for the first time. These test scores therefore cannot be compared to results from prior years in a statistically valid way.

Note 2: The absence of one or more disaggregation category, such as Students With Disabilities, means that no students were tested who belonged to that category.

Note 1: Testing data for school year 2000-2001 establishes a new baseline for Montana assessment, reporting the results of a new test (ITBS/ITED Form A, normed against a national sample population in school year 2000) administered uniformly across the state for the first time. These test scores therefore cannot be compared to results from prior years in a statistically valid way.

Note 2: The absence of one or more disaggregation category, such as Students With Disabilities, means that no students were tested who belonged to that category.
